### GRANDPA'S STORY.

"O Grandpa!" shouted little Freddie Lee, climbing up into his grandfather's lap, "I do wish you would tell me a story. I shouldn't be so restless if you would."

"Well, Freddie," replied his grandpa, "what kind of a story shall it be?—a fairy story?"

"O, no; a real live story—one that will make me shiver; one of your own adventures which really happened."

"Once upon a time," commenced the old man; but he had scarcely spoken the words when he was interrupted by his grandson, who exclaimed—

"Don't commence fairy-story way; I'd like it better to be, 'When I was a boy.'"

"Well, when I was a boy, I fear I was not as contented as I ought to have been, for I had a good home, kind parents, plenty to eat, and cloths enough to wear."

"Why wasn't you contented, grandpa?" said Freddie.

"Because I thought farm-work was too hard; and, living in a small town, I had not the advantages of attending school as city boys had. I read enough of foreign countries, their customs and manners, to make me yearn to learn more. Now, this I knew could be accomplished by going to a large school; and when I at once set my mind upon going, I never remained quiet until father and mother knew of my wish."

"Were they willing to have you go, grandpa?"

"They reluctantly consented at last, for they were aware that no one could wrest a good education from me."

"How did you go, grandpa?—in the cars?"

"We did not have cars in those days, Freddie; nothing but a lumbering old stage-coach, which passed by the school to which I was going. Mr. Ledlaw was the teacher's name, and a kind man he was to his 'band of children,' as he always called his school-boys. Poor man! But I should not say *poor*, for he is better off in his heavenly home."

"Is he dead, grandpa?"

"Yes, Freddie, he has been dead many years."

"Well, go on *with the story*."

"I arrived at last at the academy, and soon learned the routine of school duties. Every study came easy to me, save composition; somehow that was exceedingly difficult for me to write; and as the penalty of appearing in the recitation-room without one on the day they were required, subjected us to the punishment of rising earlier the next morning to write one, you may be assured I tried hard to fulfill the requirement. One morning, however, I failed to bring it; and Mr. Ledlaw, after obtaining the others, asked me for mine."

"I have none," I replied.

"And why have you not?" he asked.

"Because I *cannot* write one."

"Cannot, Harry! that is a very strange word to come from one who is so smart as you generally are, and I can take no such excuse from you. You know the penalty, which is, that you must rise two hours earlier to-morrow morning, and accomplish your task."

"I thought Mr. Ledlaw was extremely harsh and unreasonable; and as I foolishly imagined that I really could *not* write the composition, I resolved, during the afternoon, to run away in the night, thus escaping my bugbear. The time came for the boys to go to bed, and I did up all my clothes in a little bundle, and undressing myself, got into bed, and made up my mind that as soon as the house was still, I would make my escape. Thoughts flitted through my mind of the adventurous life I was to lead, and that after I had been away some time, I would return to father and mother, who would be so glad to see me that they would readily forgive me for my runaway frolic; still I kept thinking until my eyes grew heavy, and I fell asleep.

"I thought I heard a clock strike twelve; so

FRIDAY, JANUARY 3, 1868.

CONGRESS will re-assemble on Monday, to do nothing, or worse.

THE Legislature will meet at Harrisburg next Tuesday.

THE Democratic State Central Committee will meet at Harrisburg on Tuesday.

DEMOCRATIC NATIONAL CONVENTION.—Fred. O. Prince, of Boston, Secretary of the National Democratic Committee, has issued an official call for the meeting of said committee, to be held in Washington on the 22d of February, to name the time and place for holding the next Democratic National Convention.

### POPE "OUT OF THE SADDLE."

President Johnson, as was some time ago intimated would be the case, has removed the "veracious" Satrap Pope, and appointed Gen. Meade in his stead. Gen. Ord has also "gone by the board," and will be succeeded by Gen. McDowell. The President is thus continuing to demonstrate that, so far as he is concerned, the laws shall be executed in the interests of the country, and not solely for the benefit of unprincipled Northern adventurers and ignorant Southern negroes. For this additional evidence of the President's genuine patriotism, the people cannot but feel grateful. Radical editors and leaders may howl, but their bluster will be of little account now. Their motives, (office and plunder,) being understood, their denunciations will hurt nobody. The President is right, and as long as he is so the PEOPLE will stand by him.

DISASTER AT SEA.—The steamship Raleigh, which left New York Saturday week, with the usual number of passengers, for New Orleans, was burned twenty miles off the coast of Charleston on Tuesday. Eighteen of her passengers and crew arrived in a tug at Charleston on Thurday. Thirteen lives are supposed to have been lost, Capt. Marshman included, and twenty-four persons, who were last seen in the boat or clinging to pieces of the wreck, are missing. The Raleigh was a large sidewheel steamer, belonging to the Atlantic Coast Mail steamship Company.

—When we visited Charleston, in 1860, on the steamer "Keystone State," Capt. Marshman had command of that fine vessel. He was reputed as a first-class officer, and certainly had the bearing of an intelligent and well-bred gentleman. His admirable management of the steamer during the heavy storm we encountered on the return trip, won high encomiums from all the passengers. Resolutions of thanks were adopted, and published in the Philadelphia papers. We most devoutly hope he has been saved.

REPORTS from the South state that during the present winter severe distress is anticipated among both the whites and the negroes, especially among the latter. It is reported that the freedmen are being discharged in large numbers by their employers, on account of a scarcity of food and means, and starvation in many instances is actually at the door of both whites and blacks. In Mississippi Governor Humphreys has issued a proclamation stating that he has received such information respecting projected outbreaks among the negroes, that he finds it necessary to warn "all combinations for such a purpose that their intentions are known and they cannot succeed, and that if the black race believes the lands will be distributed among them they are greatly deceived."

GEN. GILLEM, of the Freedmen's Bureau, reports that the negroes in the South are in an awful condition of want and driven almost to desperation. "Reconstruction" has discouraged or broken down the planters, and hence they have no work for the great mass of blacks. As a consequence the latter are brought to want or driven to theft and murder. The dying curse of every starved negro and of every murdered white man should fall upon the Radical leaders in the Rump Congress, whose ignominiously selfish "policy" has brought about this state of affairs.

THE Arkansas darkies are, like those of Florida, going into the wholesale robbery business. It is impossible to raise crops or keep stock, unless a constant watch and guard is kept up. Besides this what they cannot get by stealing they are ready to secure by murder. It is also stated that a plot has been concocted among them for a general massacre. At any rate Gen. Ord has been appealed to for troops to protect the people, and Col. Jacques, at one time a peace commissioner to Richmond and of late a resident of Arkansas, has gone to Washington to lay the facts before the Government.

MURDER IN WASHINGTON.—On Christmas night, while three men were turning a corner in the First Ward of the city of Washington, one of them ran against a colored man, who in company with a colored woman, was going in the opposite direction. The colored man, after uttering an oath, fired his revolver at the white man, who has since died from the effects of his wound. The murderer escaped.

THE investigations of the Committee appointed by the Rump House to inquire into the "loyalty" and antecedents of the Kentucky delegation of Democrats, cost the taxpayers the enormous sum of four hundred thousand dollars, and not a particle of evidence of "disloyalty" was found. The Rump Rads consider fifty or a hundred thousand dollars of the people's money as nothing when they want to throw out a Democratic member of Congress, who was honestly elected.

HON. Cornelius S. Hamilton, the Republican member of Congress from the Delaware District in Ohio, was killed by his insane son at Marysville, on Sunday week. While feeding the stock, on his farm, the boy, who is eighteen years old, stepped up behind his father and struck him on the back of the head with a board, killing him instantly. The father had gone from Washington for the purpose of removing him to a Lunatic asylum.

IMPORTANT DECISION.—The Supreme Court of the United States has decided that deposits in a savings bank invested in United States bonds are subject to local taxation. The case in which the decision was made was that of the State of Connecticut against the Hartford Savings Society.

AT Memphis, on Christmas, a policeman was mortally wounded whilst endeavoring to arrest three drunken men. A negro boy was shot by another boy on the same day, and some dozen or more darkies were injured by the careless use of firearms.

### RADICAL RECONSTRUCTION.

Speaker Colfax has written a letter to a Mr. Conway, of New Orleans, in which he declares that the Radical party will take no backward steps; that they will not modify the terms of reconstruction in any essential feature one hair's breadth. This letter has been published in the South, and is accepted by the ultra Radicals of that section as the corner-stone of their organization. Hunnicutt and Hamilton are preaching this doctrine to the negroes in the league rooms, and urging them to demand a *full equality of rights in all particulars*. The idea of office and pay, emoluments and spoils, is held out to the negroes as a reward for their steady adhesion to the dominant party. They are told that no matter what their demands may be, they will be granted, that the negro platform will not be changed one hair's breadth. Upon this idea Governor Brownlow has erected the State government of Tennessee, and in all parts of the South the party in power are acting upon the same principle. They are in favor of reconstruction acts that will place the balance of political power in the hands of the negroes, send negroes to the Senate and House of Representatives, elevate them to the gubernatorial chairs of the Southern States, and in this manner reduce the white people of that section to the condition of holding their lives, liberty and property at the mercy of negroes. These are the effects of the reconstruction plan put in force by the Radical party in the South, and from this Speaker Colfax declares they will not depart one hair's breadth.

But there are evidences of the most positive character that the people, both North and South, will depart from the Africanizing scheme of the Radicals. The late elections in the North prove this fact. Connecticut, New York, New Jersey, Pennsylvania, Ohio, California and other States repudiated the negro policy, and proclaimed in favor of a *white man's government*. They are not willing to make a Hayti out of one portion of the nation. They do not believe in beggaring millions of white men, women and children; destroying business, and producing a war of races, with all its untold horrors, in order that Mr. Colfax or some other political aspirant may be carried into the White House on the dark and turbulent wave. The North will not endorse the action of Congress with reference to the Southern States. Nor are the white people of the South patient under the load heaped upon them. Even the leaders of the Radical party in that section are becoming alarmed at the march of events; startled at the course pursued by the men who are guiding and controlling the negroes. They fear a conflict between the whites and blacks, and the destruction of all forms of civil government. In Alabama the papers are almost unanimous in condemnation of the action of the Constitutional Convention. The Huntsville *Advocate*, a Radical organ, calls for the reassembling of the Convention to modify the objectionable portions of the proposed Constitution—namely, the clause with reference to schools, the franchise and registration oaths, and says, "if the Constitution is not modified, environed as we are, and almost in a state of anarchy, its adoption can only be accepted as a choice of evils, and defended as right and proper. But *it is in our power to modify the evils* now," and for that purpose urges a call of the Convention together again. The Tuscumbia *North Alabamian* opposes nominations and the action of the Convention, and the Huntsville *Advocate* repudiates the action of the Radical meetings in North Alabama, and declares the "white" Unionists are ignored and rejected as unsound. In all parts of the State white men are leaving the Radical party on account of those features of the proposed Constitution which places them in subjection to the negroes. They are determined to defeat that instrument at all hazards, believing that only by such a course can peace, order, and prosperity be restored to the nation.

While the reconstruction policy of the Radical party is thus repudiated North and South, while its effects can be seen in the starving condition of the people of the once prosperous South, Speaker Colfax, on behalf of the party in power, declares that Congress will not take a single backward step in reconstruction, that they will not modify the plan under which the Southern States are now governed one hair's breadth. This is the platform for the future. Let the people of the South starve, perish the business of that section, in order that negroes may vote for the next President, and thus secure the triumph of the Radical party. Radical reconstruction must now be measured by its avowed meaning and *intent*. The people can no longer mistake the purposes of the men who are pushing on the negro column in the South. They are so apparent, so offensive to the white people of that section, that a general abandonment of the negro platform is taking place. These are facts which Speaker Colfax and his party must face. Reconstruction on the negro basis is a failure, and if Congress attempts to force it upon the nation, they will be crushed to powder beneath the weight of public indignation.—*Age.*

DISSATISFACTION OF SOUTHERN RADICALS.—The Southern Radicals, it seems, are very much dissatisfied with the action of the Republican executive committee in fixing so early a date as the 20th of May for the meeting of the Republican Presidential Nominating Convention. The Washington Star says:

"They say it is scarcely probable that the Southern States will be admitted to representation in Congress before that time, and as the committee has decided that only such States as are represented in Congress shall be entitled to send delegates to the National Convention, they are virtually debarred from all participation in the choice of candidates for the Presidency and Vice-Presidency. It is alleged that this action upon the part of the committee was taken with a view to secure the nomination of General Grant, as it is known that a majority of the Southern radicals are in favor of Chief Justice Chase for the Presidency. The project of holding a separate convention is seriously contemplated by the leaders of this dissatisfied class of Republicans."

SEVEN hundred men have been discharged from the Philadelphia navy yard, and more than a hundred are soon to follow. A proportionate reduction of workmen has been or will shortly be made in all the Government yards and workshops. This discharge of white men is what the Rads call the retrenchment policy of Congress—so long promised. The money thus saved to the Government will probably about meet the extra appropriations in the Deficiency bill for the Negro Bureau and to pay the Radical election expenses in the South.

DEPLORABLE CONDITION OF FLORIDA.—The Charleston *Mercury* gathers the following from Captain Lewis M. Coxeter, who has just returned from an extensive tour in Florida:

He traveled from Jacksonville to Tallahassee and Fernandina to Gainsville, and along the various routes robbery and plunder were daily reported. The cotton crop was a signal failure, and the little that matured is carried away by the negroes, if not from the field, from the gin houses, scores of which have been broken into and plundered. But little corn was raised, and that little is going the way of the cotton. Cattle, hogs and sheep are nightly massacred by the freedmen and carried off. One gentleman had three cattle shot on one day, but the wounded animals made their way home before they were captured by the desperadoes. A lady, who a few months ago, had over eleven hundred head of sheep, has not one to her name to-day—all killed and carried off by negroes. The Captain thinks that cotton planting on a large scale has ceased in Florida, at least under the present system of labor, over which the employer seems to have no control.—With the failure of the great staple, and the plunder of the remnant of the crop, which might in part have paid the advance for raising the same, and without corn to last longer than the opening of the year, the majority of the planters in Florida are truly in a pitiable condition.

ONE night last week the house of Daniel Dougherty, on the road leading from Neuse to Trent, North Carolina, was surrounded by a band of negro desperadoes, who infest that part of the State to the terror of the inhabitants. Ben. Carmer, the leader of the gang, entered the house, which was at the time occupied only by a Mr. Bratcher and a small boy, and demanded money. Meeting a refusal the negro immediately fired his revolver twice at Bratcher, wounding him in the arm and abdomen so severely that he has since died. At this juncture the boy secured a gun and shot the negro dead. The rest of the gang immediately fled.

THURLOW WEED says that if Congress keeps on its present course, the question will be, when the Republican National Convention meets, not whether General Grant shall be nominated, but whether even Grant can be elected.

### IMPORTANT REMOVALS.

WASHINGTON, December 29.—As foreshadowed in these dispatches some days ago, the President has relieved General Pope from command of the third military district, and named Gen. Meade as the successor in that command. This action can be readily understood by all who have been observant of the course pursued by General Pope in the matter of removals of State officers, who were decapitated without the assignment of facts constituting obstruction to the law; but especially has General Pope's conduct been objectionable to the Executive in so far as that military commander, whilst in the exercise of his official duties, has sought to identify himself as a political partisan, and in working openly and avowedly in the interests of the radical party.

It is not expected that General Meade will give himself over to the interest of any party, and certainly no understanding of any kind has been entered into between that officer and the President as to the course that shall be pursued in the conduct of affairs in the third district.

I have it from unquestionable authority that General Meade is selected to succeed General Pope simply upon the belief that the former will execute the reconstruction laws to the letter, and at the same time in such a manner as to give to none just cause for complaint of tyranny or partial exercise of the almost unlimited powers conferred upon district commanders. There is no foundation in fact for the reports in the papers that General Meade remonstrated against his appointment to the command, and that he at the same time indicated that if appointed he would exceed General Pope in rigorous execution of the law.

Gen. Ord not long since requested that he might be relieved from command of the fourth district, and on that account, and in the hope that a new officer in charge of that district might possibly avoid some of the errors committed by the late commander, and govern the district in a more consistent and systematic manner than it has heretofore been managed, Gen. Ord was relieved.

It was shown satisfactorily to the President that General Wager Swayne has been making use of his official position in Alabama for his (Swayne's) own political advancement, and therefore the order that he be relieved from duty in that State and join his regiment in Nashville.

THE conduct of Gen. Hancock, since he took command of the Louisiana district, is highly praised. He discharges his delicate and arduous duties with great prudence and justice, and with entire absence of any feeling of malevolence toward the unfortunate people he is sent to rule over. His revocation of the tyrannical orders of his immediate predecessor, his regard for the rights of the people, and his declaration that the military is subordinated to the civil power, not only mark him as a soldier and patriot, but are evidence that he understands the true theory of our government, and means to preserve intact the constitutional guarantees to the people. It is so seldom that one clothed with the unlimited power he possesses uses it so wisely and so well, that his conduct attracts greater attention The liberty of the people will always be safe in the hands of such a commander. It will not diminish the high estimation in which the people hold Hancock to recall the fact that he was violently opposed to the Military Commission which tried the murderers of Lincoln, and doubted both the legality of that tribunal and the guilt of Mrs. Surratt. As commanding officer of that department, it devolved on him to carry out the sentence on the conspirators, and only the urgent entreaties of his friends prevented his resigning his position, rather than carry it into execution. He endeavored to have the judgment modified in the case of Mrs. Surratt, but it is believed his communications were delayed in the War Office and never reached the President.—*Erie Observer.*

AN interesting interview between General Hancock and the Chief of Police of New Orleans is described in the *Picayune* of that city. The latter official, it appears, had certain prisoners in his custody, and had determined to disobey a writ of *habeas corpus* issued from a civil court. The account in the *Picayune* thus refers to the interview:

General Hancock stated to Major Williamson, Chief of Police, that he had learned that owing to some illegality it was probable that it would not be obeyed. That writ, Mr. Chief of Police, (remarked General H.,) must be obeyed. I will hold you responsible in this matter.—Those prisoners must be produced. I believe you will produce them, but I will myself take the necessary precaution that they be produced. I have issued an order that the writ of *habeas corpus* is to be observed, and it shall be. I am here to protect the dignity of the government, and the rights of the people as to life, liberty, and property, must be preserved. So long as I am in power here, the law shall be respected.

I know nothing, Mr Chief of Police, about this case; do not know what these men are charged with, but it is sufficient for me to know, and you to know, that a writ of *habeas corpus* has been issued, and that writ shall be respected. I will sink the boat in the middle of the river with cannon that takes these men on board, and intercept any train of cars that carries them. If the law is not observed, who and what is safe? I may be taken away, you may be, any of us may be. Justice must be upheld. I hold you, therefore, Mr. Chief of Police, responsible for the delivery of these men before Judge Theard, in obedience to that writ.

PROFIT OUT OF THE MISFORTUNES OF OTHERS.—The following, from the Savannah Republican, tells its own story:

"*Hienesville, Liberty county, Ga.*, December 10.—A sale has taken place at this county seat that so well marks the extreme depression in the money market that I send you the particulars. Col. Quarterman, of this county, deceased, and his executor, Judge Featter, was compelled to close the estate. The property was advertised, as required by law, and on last court day it was sold. A handsome residence at Walthourville, with ten acres attached, outhouses and all the necessary appendages of a first-class planter's residence, were sold for sixty dollars. The purchaser was the agent of the freedmen's bureau. His plantation, four hundred and fifty acres of prime land, brought one hundred and fifty dollars; sold to Mr. Fraser. Sixty-six acres of other land, near Walthourville, brought three dollars; purchaser, Mr. W. D. Bacon. These were all bona fide sales. It was court day, and a large concourse of people were present. The most of them were large property owners, but really had not five dollars in their pockets, and of consequence would not bid, as the sales were for cash."

Here is a chance for making fortunes, especially for the agents of the freedmen's bureau.

CONGRESS spends millions of dollars per year to feed and clothe the negroes of the South, who will not work, and at the same time refuses work in the navy-yards to white laborers and mechanics, who are willing to give a full equivalent to the government for the wages they may receive. This is Radical love for white workingmen. It is no wonder they are organizing in all parts of the country to hurl from power the dominant organization of the nation.

## Local Department.

### TOWN, COUNTY AND SURROUNDING COUNTIES.

*Thanks.*—Hon. A. J. Glossbrenner has our thanks for an interesting congressional favor.

*Insured.*—Mr. Marshall's barn, (Franklin township,) recently destroyed by fire, was partially insured in the Mummasburg Company, it is said.

*Preaching.*—Rev. John Jameson, of Kittanning, Pa., will preach in the United Presbyterian Church, in this place, on the second Sabbath in January, at 10½ o'clock in the morning

*Reduced.*—The Gettysburg Gas Company declared a dividend of 5 per cent. for the last six months. The Directors have determined to reduce the price of Gas from $5 to $4.50 per 1,000 feet.

*A Happy New Year.*—We again tender the compliments of the season to our thousands of readers, old and young, high and low, rich and poor, and wish them one and all "A Happy New Year," and a greater degree of health and prosperity in the future than they have ever enjoyed in the past.

*Thanks.*—Our Carrier returns his best thanks for the liberal reception given him on New Year's day—having pocketed a larger amount of the "needful" than ever before. He has an idea that next year he will be able to buy confections by the ton.

*Incorrect.*—The School Directors of Tyrone township were not among those who refused to grant "the time" to teachers in attendance at the recent Teachers' Institute. A mistake in the Secretary's report.

*Deer Shot.*—On Friday morning last, three deer were shot in Buchanan Valley, within a quarter of a mile of each other, (between Levi Irvin's residence and saw mill.) Samuel J. McKenrick, of Chas., shot the first, a three-pronged buck; his brother, Joseph, the next, a fawn buck; and Andrew Noel the next, the old doe. This was an unusually good morning's work in the South Mountain.

*Large Porker.*—Ex-Sheriff Wolf, of the "Globe Inn," last Friday slaughtered a hog which weighed 570 pounds—in eight draughts at that. Its length was eight and a half feet. We suppose these big figures "take down" any of our neighboring towns.

*Two More.*—Mr. Peter Stoner, on Tuesday, slaughtered two hogs, sixteen months old, which weighed 467 and 484½ pounds. Not bad for Highland.

*Military Ball.*—A grand Ball, under the auspices and for the benefit of the "Franklin Zouaves," will come off in Rether's Hall, Middletown, on Thursday evening next, (January 9th.) The friends of the Company are expected to patronize it liberally. A pleasant time is promised, and will no doubt be had.

*Property Sales.*—Mr. John Lauver has sold his property, in "Texas," Butler township, to Mrs. Hartzell—about 11 acres of land, with improvements, at $1,650. Mr. Lauver has purchased a farm from Samuel Hummer, in the same township, northwest of Middletown.

Capt. McCurdy has sold 200 acres of his farm, in Cumberland township, to John Hartman, at $50 per acre.

*Temperance Lecture.*—The celebrated Temperance advocate, Dr. Jewett, will Lecture in Gettysburg, on Friday night next, (the 10th instant.) Dr. Jewett's addresses are highly spoken of, as being full of instruction of the very first importance and calculated to hold the attention and impress the understanding and the hearts of the most intelligent men. Lecture free.

*Town Clock.*—The new Town Clock is up! Mr. J. D. Custer, of Norristown, the builder, has been engaged several days in placing the clock in the Court-house cupola, and yesterday evening started it going. It looks to be a capital piece of workmanship, and will, we doubt not, prove an excellent timekeeper—a convenience which this place has been without for several years. The cost of the clock is borne by Mr. H. D. Wattles, Treasurer elect, in accordance with a promise made by him last fall. He hoped to have it up months ago, but as town clocks are not built in a day, the delay has been unavoidable. It is now in its place, however, and running—a fact which the public highly appreciate.

*Masonic.*—The Masons had a delightful time in Agricultural Hall, on Friday night last, where and when their annual St. John's supper came off. The collation, bountiful and excellent in every particular, was partaken of by some sixty or seventy gentlemen with keen relish. The large Hall, brilliantly lighted and handsomely decorated, presented a most interesting scene. The whole affair was a very enjoyable one, and will not soon be forgotten by those who had the pleasure of being present.

—The following gentlemen have been elected officers of the Lodge here, ("Good Samaritan," No. 336,) for the ensuing year:—W. M., Dr. J. W. C O'Neal; S. W., Capt. J. F. McCreary; J. W., D. A. Buehler; Treasurer, John Rupp; Secretary, Maj. H. S. Benner.

*Bold Thieves.*—On Saturday night week, a gang of thieves visited the barn of Mr. Jacob Musselman, near Fairfield, and took therefrom a string of sleigh-bells; then went to Mrs. T. A. Marshall's, from which they stole two strings of bells and a set of harness. As indicated by tracks in the snow, they traveled in a wagon. A few days after, a search warrant was procured, and the house occupied by three brothers, named Myers, at "Hardscrabble," in Franklin county, searched, when the missing goods were found, with some others stolen from Mr. John Ogden, a week or two before. The thieves made their escape into the mountain.

*Dead Letters.*—It is pronounced not true that the Postmaster General has instructed Postmasters to treat all letters directed with a lead pencil the same as dead letters, to be forwarded at once to the Dead Letter office, at Washington. No such instructions have been issued. While it is desirable that all letters be distinctly and legibly directed, with ink if possible, *all* letters legibly directed, (whether with pen or pencil,) and properly stamped, are sent to their destination.

*Fire.*—The extensive establishment of Mr. F. Rahter, manufacturer of the "Zingari Bitters," in Harrisburg, was entirely destroyed by fire on Thursday night week. Loss about $25,000, of which $17,000 are covered by insurance. Mr. Rahter formerly resided in Littlestown.

*Skaters* are, by a recent Yankee invention, to be made comfortable. A "warm skate" has been invented. In a slot in the skate-stock is inserted a square bit of soapstone, made red hot in the fire. It retains warmth for some hours, and keeps the skater's foot in a comfortable condition—a sort of portable stove, which is handy and effective.

*Accident.*—On Friday night last as Mr. Jacob Hoopfer, residing near New Oxford, was returning to his home from the residence of Mr. Isaac Miller, several miles from this place, along the Gettysburg railroad, met with rather a painful accident. The night being very dark, and while crossing a bridge over the railroad, he missed the bridge and fell to the railroad, the distance of about eighteen feet, bruising himself in a painful manner. He was conveyed to his home by Mr. Miller, who was attracted to the bridge by the groans of the wounded man, and medical aid procured. He is doing as well as could be expected.—*Hanover Citizen.*

*The Asylum Project.*—We notice by the Philadelphia papers that Attorney General Brewster persists in his determination to arrest the "Gettysburg Asylum" scheme by legal process, on the grounds of its alleged illegality. His application to the Supreme Court for the issue of a writ of *quo warranto* to restrain the managers from further proceedings under the Act, made last summer, is to be argued at the January session of the Supreme Court in Philadelphia.

*Impostor.*—"S. Johnston, Box 227, Urbana, Ohio," who has been offering to send by mail a book, with engravings of military heroes, &c., on receipt of 50 cents and two stamps, is published as an impostor. Detectives were on his track at last accounts.

*Large Pursnip.*—Mr. John Dundore, of Hunterstown, sent us, the other day, a parsnip measuring 17 inches in circumference. Hard to beat.

*"V Toes"* were the order in the last session of Congress, but nothing was so effectually vetoed as Indigestion, Dyspepsia, and their kindred evils, by Coe's Dyspepsia Cure. No two-thirds vote can ever sustain these troubles when the cure is called to the rescue. Dyspepsia, Heartburn, and Acidity of the Stomach cannot exist where Coe's Dyspepsia Cure is taken.

*Life Has Few Charms* for the Dyspeptic, which is not to be wondered at when we take into the account the amount of bodily and mental suffering that this distressing malady generates. The Peruvian Syrup (a protoxide of Iron) has cured thousands who were suffering from this disease.

*Warm Weather and its Effects.*—Many people, especially ladies, complain at this season of the year of general weakness and debility. The use of Speer's Port Grape Wine prevents this. The wine is said to have a most wonderful effect in giving strength, vigor and tone to the whole system; it is extensively used by ladies nursing or about to nurse infants.

*Parties from London and Paris* order it, appreciating it above French wines. It is said to be unsurpassed for summer complaints and for weakly persons. Our druggists have obtained some direct from Mr. Speer. The price is low for so excellent a wine, and every family should have a bottle in the house.—*Philadelphia Pr.*

REV. DR. HARBAUGH, of the Mercersburg Theological Seminary, died on Saturday, after a long illness. His place will not easily be filled.

AT a large meeting of Conservatives held at Montgomery, Alabama, to take action against the ratification of the Negro Constitution lately formed by the Mongrel Convention, Hon. John Forsyth, of Mobile, in his speech thus defines the Conservative attitude towards the negroes:

"We must struggle to pull the negro race out of the fangs of the vipers who, like the anaconda, slimes the victim the more easily to devour him. We must convince them that the devils are driving them like a flock of sheep—as innocent as ignorant—to the brink of the precipice, over the verge of which is a war of races, wherein numbers, experience and intellectual superiority can lead to but one issue, their extermination from the face of the land. The negro must be taught that while we wish him every earthly and heavenly blessing, while we would give him every civil right, security to life, to property, to education for his children, temples in which to worship his God, guidance, friendship and protection, that he can nowhere dominate over the white man, and that in this Government, created expressly by white men and for white men, he shall never do it."

Died, in Union township, on the 25th of December, 1867, HAMILTON LUTHER, son of Wm. and Mary Ann Slifer, aged 1 year 8 months and 11 days.

Peaceful be thy silent slumber,
Peaceful in the grave so low;
Thou no more will join our number,
Thou no more our songs shalt know.
Dearest Luther, thou hast left us,
Here thy loss we deeply feel,
But 'tis God that hath bereft us—
He can all our sorrows heal.
Yet again we hope to meet thee
When the day of life is fled;
There in heaven with joy to greet thee,
Where no farewell tear is shed.
Farewell, brother. W. J. S.

### CARRIER'S ADDRESS
TO THE PATRONS OF
THE GETTYSBURG COMPILER.

*January 1, 1868.*

HAPPY NEW YEAR!

A happy New Year!—once more to all,
A happy New Year!—may gently fall
Life's troubles; but let not present joy
Shut out the little "Carrier Boy."

WOMAN.

Ere I to graver matters go,
To woman here I give a line;
We owe her all of bliss on earth,
And thank her oft in song and wine.
There a maught of good the race can have,
Which dreams or fancy ever teach—
There's naught in life of any worth,
Despite what bachelors may teach;
There's not a joy that here is giv'n,
But through dear woman's aid must come—
The loving look, the kindly word—
The life, the light of ev'ry home.

THE COUNTRY.

Oh, could the spirits of the mighty dead,
Who for their country and its freedom bled,
Permitted be to pass again to earth,
And scan the land since *Secessionism's* birth;
Trace each sad changing to its hellish cause,
The work of hatred and oppressive laws,
That marks the record of the passing year
Since foes of right do rule and govern here,
How would they weep, if but weep they might,
With tears of blood upon their country's blight.

HOPEFUL FUTURE—THE ELECTIONS.

But the day dawns—bright daylight comes,
To chase the darkness of the hour,
To give the pledge that on *this* land,
Misrule shall not longer lower.
There is hope for the white man still,
Hope for his rights and his station—
The PEOPLE have thunder'd it forth:
"THE WHITE must rule in THIS nation!"
Connecticut pierc'd the right wing,
Noblest of the New England States!
California, quick on the left,
Swept it midst its curses and hates.
The Keystone spoke in October,
With the Empire, loud for the laws
Made by the great of the nation,
The fathers of the "good old cause."
The Buckeye State, long darkened
By foulest miscegenation,
In thunder tones at last proclaims:
"Inferiors, keep your station!"
Kansas and Minnesota, too,
Though black before as well could be,
"Equality" and right to vote
They could not in October "see."
"My Maryland," by thousands strong,
Threw off the yoke of tyrants' thrall;
E'en Massachusetts restive proved
Under ruin dread and debt's dark pall.
The Cities in their might speak out,
Of all the great our greatest marts:
"Peace to the country *must* now come,
And union of *all* its parts!"
Courage, then, true patriots all,
The dawn of better days has come;
Radicalism is falling fast
In this, lov'd freedom's only home.

THE NEXT ELECTION.

But "up and at them!" once again,
Another battle's to be won—
Struggle desperate for the Right—
But win it, and your work's all done.
Fail not, or madmen still will rule—
Oppression thicken blow on blow—
And this fair land, of good and great,
Will sink in anarchy and woe.
The curse of white men trodden down,
By negroes in the South we see,
And "loyal" pious still applaud—
Oh, God, can such among us be!

THE COUNTY.

When Know Nothing Sam, "of dark lantern fame,
Started the work of proscription,
The people of Adams spoke out against
Wrong of every description.
And so now with his twin brother "Sambo,"
Than of "Sam" they want him no more—
To "*consolidate*" even *don't* help him—
He's no whiter since than before.
The people are in their seven senses,
And know how the "loyal intrigue—
How they pant for the "loaves and the fishes,"
Inside of or out of the "league."
Hence, Adams, with its light and its reason,
Will ne'er with this infamous few
Consort to get office and high station—
*That* it cannot—never will do.
Our people, not rich, always gave their share—
Suffered more than else in the State—
*Now* know what demagogue pledges are worth—
Will mind them, though never so late.

THE RADICAL'S LAMENT.

The other day, I chanced to hear
A very loyal gent
Bemoan himself most bitterly,
And thus he did lament:
"Now all our loving countrymen
That feeling hearts possess,
Come listen to our tale of woe,
And pity our distress.
Our party was of power possessed
Until the other day;
But now our strength is growing less,
And falling day by day.
And, oh! if you could hear our groans
And see our tearful faces
When'er the bitter thought occurs
That we may lose our places.
We boasted of our loyalty,
The people to deceive;
But lately they have found it out—
'Twas only 'make believe.'
And then we set the negro up,
That votes we might not lack,
And hoped we might regain our power
By riding on his back.
But *many of the States of late*
Have voted his rejection;
And if we lose the negro vote
We lose the next election.
We tried to squelch the President,
Despite the people's 'no;'
We did our best to frighten him,
But it was all 'no go.'
There's a General Grant might help our cause,
If anybody can;
If he would but

# The Gettysburg Compiler.

*FRIDAY, JANUARY 3, 1868.*

*New Subscribers.—Premium.*—This is the beginning of a new year, and a very proper time to subscribe for the COMPILER. The paper (greatly enlarged) contains weekly not only all the news worth publishing, with agricultural and other useful reading—but also a large amount of valuable matter bearing on the political issues of the day. In local matter it is always in the lead.

Our list is already large, but it can be increased—and *should* be, the importance of the coming Presidential campaign considered. As an inducement to our present subscribers to assist in the desirable work, we make the following offer:

Any one now a subscriber to the COMPILER, who will send us the names of *four* new subscribers, *with the cash in advance*, (eight dollars,) will receive a credit of one year's subscription on his own account—in other words, for a new subscriber sent in, accompanied by the cash, a PREMIUM OF FIFTY CENTS will be allowed as a *credit* on present subscription.

Who will be the first to go into this work? CIRCULATE THE TRUTH!

*A Word in Season.*—The enlargement of the COMPILER has brought with it a vastly increased outlay—not only that necessary in the start, but every week, almost every day, since, for labor, paper, and other materials. And all this we are compelled to meet *without any increase in the price of subscription.* But are we meeting it? Scarcely—no!—Why? Simply and solely because so many who owe us don't pay. Our business is larger than ever, and yet we are getting comparatively less cash than ever. This system won't do, and can't be followed long unless backed by a fortune—which printers seldom or never are. The remedy, then, is, *prompt payment.* Not next month, or next spring, but *now*—at once—before another day, or at latest, another week goes by. We cannot live on nothing, nor can our workmen—nor will the paper-maker dispense the fruit of his capital for charity, or even on credit.

A new year is about to begin. Delinquents, pay up, and start with a clean book for 1868! Help us to adopt the *cash system.* It is best for everybody, and we *must* resort to it under our heavy outlays.

To that goodly number who pay in advance, our thanks cannot be too often expressed. But to that class who seem never to think of paying the printer, we have only to say—*pay at once, and save further trouble!*

## 525 MILES

OF THE

## UNION PACIFIC RAILROAD,

**Running West from Omaha**

ACROSS THE CONTINENT,

*ARE NOW COMPLETED.*

This brings the line to the eastern base of the Rocky Mountains, and it is expected that the track will be laid thirty miles further, to Evans Pass, the highest point on the road, by January. The maximum grade from the foot of the mountains to the summit is but eighty feet to the mile, while that of many eastern roads is over one hundred. Work in the rock-cuttings on the western slope will continue through the winter, and there is no reason to doubt that the entire grand line to the Pacific will be open for business in 1870.

The means provided for the construction of this Great National Work are ample. The United States grants its SIX PER CENT. Bonds at the rate of from $16,000 to $48,000 per mile, for which it takes a *second lien* as security, and receives payment to a large if not the full extent of its claim in services. These Bonds are issued as each twenty-mile section is finished, and after it has been examined by United States Commissioners and pronounced to be in all respects a first-class road, thoroughly supplied with depots, repair-shops, stations, and all the necessary rolling stock and other equipments.

The United States also makes a donation of 12,800 acres of land to the mile, which will be a source of large revenue to the Company. Much of this land in the Platte Valley is among the most fertile in the world, and other large portions are covered with heavy pine forests and abound in coal of the best quality.

The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to the issue of the Government and no more. Hon. E. D. Morgan and Hon. Oakes Ames are Trustees for the Bondholders, and deliver the Bonds to the Company only as the work progresses, so that they always represent an actual and productive value.

The authorized capital of the Company is One Hundred Million Dollars, of which over five millions have been paid in upon the work already done.

EARNINGS OF THE COMPANY.

At present, the profits of the Company are derived only from its local traffic, but this is already much more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond precedent, and, as there will be no competition, it can always be done at profitable rates.

It will be noticed that the Union Pacific Railroad is, in fact, a *Government Work*, built under the supervision of Government officers, and to a large extent with Government money, and that its bonds are issued under Government direction. It is believed that no similar security is so carefully guarded, and certainly no other is based upon a larger or more valuable property. As the Company's

FIRST MORTGAGE BONDS

are offered for the present at 90 CENTS ON THE DOLLAR, they are the cheapest security in the market, being more than 15 per cent. lower than U. S. Stocks. They pay

SIX PER CENT. IN GOLD,

or over NINE PER CENT. upon the investment.

Subscriptions will be received in GETTYSBURG, by GETTYSBURG NATIONAL BANK and FIRST NATIONAL BANK, and in New York at the Company's Office, No. 20 Nassau street, and by

CONTINENTAL NATIONAL BANK, No. 7 Nassau street.

CLARK, DODGE & CO., Bankers, No. 51 Wall st., JOHN J. CISCO & SON, Bankers, No. 33 Wall st., and by the Company's advertised Agents throughout the United States. Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

A NEW PAMPHLET AND MAP, showing the Progress of the Work, Resources for Construction, and Value of Bonds, may be obtained at the Company's Offices or of its advertised Agents, or will be sent free on application.

JOHN J. CISCO, Treasurer, New York.

AMERICAN

WALTHAM

## WATCHES.

The true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed like any other machine, on mechanical principles. If the Watches are good, it is because the machinery is good. Of course there must be no defect in the principle or plan of the movement—no mistake in the sizes or shapes of the pieces of which it is composed—nothing wanting in their properties, and no error in their positions. These points once thoroughly settled, it rests wholly with the machinery, constructed with infinite diversity of form and function expressly for, the purpose, to produce the finished pieces. By means of multiplying gauges and microscopes, tests and inspection for the detection of wear in the cutting tools, and for faults and flaws in steel or stone are made to accompany the work in every stage from beginning to end. As a necessary result, the watch goes together a perfect machine. Every part is found to fit properly in its place. Every pin may be pushed till it pinches, and every screw turned home. Instead of a sluggish and feeble action, the balance, even under the pressure of the slightest mainspring, vibrates with a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce watches that cannot be equalled for every quality that makes a watch valuable. Simple in plan and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform in the minutest details, not easily damaged, and when repaired always as good as new. There are different grades of finish in the different varieties of watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every Watch that bears the genuine trade-mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

EVERY WATCH FULLY WARRANTED.

### AMERICAN POULTRY EXHIBITION.

The first fall exhibition of this recently organized society is now open in New York. Good judges say it is by far the largest show of poultry ever held in this country. There are one thousand chickens, and two hundred and fifty different varieties of fancy stock on exhibition. There is a fair representation of choice geese, ducks, turkeys, pigeons, rabbits, and last, but not least, attractive Angora cats. A letter from that city says:

This show is turned to a good account for exhibition, as it is made a sales-room as well as an exhibition. A large part of the stock has changed hands within the past few days. Every "coop has its price," and some of the fancy stock is exceedingly high. Just imagine how pleasant it must be to eat the eggs from a pair of Houdons that cost $1,000. Several pairs are marked for sale—price, $280, $800, and $400 a pair. Judging from the prices attached to some of the coops on exhibition, it would be much less expensive to stock a farm with a thoroughbred herd of neat cattle than the same number of fancy bred chickens, ducks or geese. There is a patent hatching machine on exhibition, price $200, warranted to bring forth three dozen chickens every three weeks. This machine attracts considerable attention from visitors, and all admire the cunning and vigor of a young brood, only a few days old.

HOW TO JUDGE THE CHARACTER OF A HORSE BY OUTWARD APPEARANCES.—Charles L. Thayer writes to the *Country Gentleman:*

"I offer the following suggestions, the result of close observation and long experience. If the color be light sorrel or chesnut, his feet, legs and face white—these are marks of kindness. If he is broad and full between the eyes, he may be depended on as a horse of good sense, and capable of being trained to anything; as respects such horses, the more kindly you treat them the better you will be treated in return. Nor will a horse of this description stand a whip if well fed. If you want a safe horse, avoid one that's dish-faced. He may be so far gentle as not to scare, but he will have too much go-ahead in him to be safe with everybody. If you want a fool, but a horse of great bottom, get a deep bay with not a white hair about him. If his face is a little dished, so much the worse Let no man ride such a horse that is not an expert rider; they are always trickey and unsafe. If you want one that will never give out, never buy an over grown one. A black horse cannot stand heat, nor a white one cold. If you want a gentle horse, get one with more or less white about the head, the more the better. Selections thus made are of great docility and gentleness."

THE FARMER AND HIS BEES.—There is a farmer at Mentz who pays great attention to bees, and owns a great many hives. He exerts such influence on his bees that all his swarms enter his window every morning as soon as he opens it, as if to bid him good-morning. They never alight, but buzz and fly around his head until he bids them alight, which he does by sign, by holding out his arms. They alight on them, and he looks as if he wore a pair of immense muffs. When the servant announces breakfast, they immediately quit his arms, without being told, and cover the table, avoiding the dishes and plates. When he sits at the table, he orders them to the hives; but before going they all alight in turn on his face to kiss him, and when all of them have touched his face the swarms retire. This sounds "fishy;" but the paper from which we translate it is a grave newspaper, and vouches for its truth.

### SCIENCE.

In needle manufactories the workmen who point the needles are constantly in contact with excessively minute particles of steel which fly from the grindstone, and float in the air, though imperceptible to the eye as the finest dust, and are inhaled with their breath. The effect is not observed on a short exposure, but being constantly repeated from day to day, it produces a constitutional irritation, generally terminating in pulmonary consumption. Persons employed in this kind of work used scarcely ever to attain the age of forty years. In vain was it attempted to purify the air before its entry into the lungs by gauze or linen guards; the dust was too fine and penetrating to be obstructed by such, coarse expedient, till some ingenious person bethought him of that wonderful power which every child who searches for his mother's needles with a magnet, or admires the motion and arrangement of a few steel filings on a sheet of a paper held above it, sees in exercise. Masks of magnetized steel wire are now constructed, and adapted to the faces of the workmen. By these the air is not merely *strained* but *searched* in its passage through them, and each obnoxious atom is arrested and removed.

THE organ, it is said, was invented by Archimedes about two hundred and twenty years before the Christian era, but whether it is so or not is not well known. There is evidence that organs were used in the Western churches by Pope Vibatianus, in the year 658. It is affirmed that the organ was first known in France in the time of Louis I., in the year 815, when one was constructed by an Italian priest.—*U. S. Musical Review.*

## KISSINGER & SHIREMAN,

NO. 2 WEST MARKET STREET, *YORK, PA.,*

AGENTS AND DEALERS IN PIANOS & CABINET ORGANS, MELODEONS, AND ALL KINDS OF MUSICAL INSTRUMENTS,

respectfully inform the public that they are prepared to furnish Pianos of the following manufacture or of any other make that may be preferred:

**Albright, Reiker & Schmidt, Chickering & Son, Bradbury, Knabe & Son, Gale & Son.**

ESTEY'S CELEBRATED COTTAGE, HARMONIC AND BOUDOIR *ORGANS AND MELODEONS.*

These Instruments stand unrivalled by any thing found in this country or in Europe, as is admitted by all impartial judges. The most eminent Pipe Organ Builders and Performers, the last to discover excellence in reed Tone, pronounced them vastly superior to all others for exceedingly quick articulation and round Tone, the essential feature in instruments of this class. We invite the severest scrutiny and criticism of all.

PATENT VOX HUMANA TREMOLO.

This late and most wonderful invention (so acknowledged by all leading artists) will be found only in the Estey Instruments. In attempting to describe the effect of this stop, we are at loss for language. Its beauties cannot be written, but must be heard to be appreciated. By this stop an ordinary performer can produce an effect which requires in the hands of a practiced artist upon a violin. It entirely changes the reed Tone, giving the sympathetic sweetness of the human voice, making it so melodious and pure that it never fails to excite the listener.

THE HARMONIC ORGAN

for Churches, Public Halls and Parlors has a powerful sub-Bass with independent reeds, Harmonic Diapason, and Vox Humana Tremolo, and is believed to be the most powerful reed organ made, being nearly equal to a Pipe Organ of three times the cost.

All instruments warranted for five years.

☞BRASS BANDS supplied with instruments and music at reasonable terms.

A liberal discount allowed for Churches and Sabbath Schools.

☞Instructions given both in Vocal and Instrumental Music, at our rooms, and at pupils' homes, either to individuals or classes, on reasonable terms.

BRINKERHOFF'S

## Corn Sheller, Separator and Cleaner.

THE undersigned would inform the Agricultural public that he has purchased from the Patantee of this extraordinary machine, the Patent Right for the States of Pennsylvania and Maryland.

Brinkerhoff's Corn Sheller, Separator and Cleaner, is pronounced the best machine of the kind in this country. And in proof, it may be mentioned that the Advisory Committee appointed by the United States Agricultural Society, the Brinkerhoff Corn Sheller, Separator and Cleaner was reported by one of the most competent Committees as the best Corn sheller out. They say, "We have carefully examined and thoroughly tested this machine, and have no hesitation in pronouncing it *the best Corn Sheller we ever saw.* The report is signed by such men as John Stanton Gould, President N. Y. State Agricultural Society; B. P. Johnson, Secretary to same; Solon Robinson, Agricultural Editor N. Y. Tribune; S. Edwards Todd, Agricultural Editor N. Y. Times.

From among many complimentary newspaper notices, the following, from the New York *Observer*, is deemed sufficient:

"Among all the Hand Corn Shellers made in New York and Albany—and one single firm manufactures more than 10,000 annually—not one can enter the circle with the Sheller just invented by Brinkerhoff, Auburn, New York. It shells, separates and cleans, rapidly and easily, at one operation, as fast as the ears can be put into the hopper."

The undersigned is now prepared to dispose of COUNTY RIGHTS. He will have SHELLERS ready for sale in the course of a month a time.
